10 November 1983

	MEMORANDUM FOR:	Office of Security	
STAT	FROM:	Chief, Regulations Control Division	
	SUBJECT:	Regulatory Issuance Questionaire	
	1. Regulations Control Division has been using a Wang Word Processing System to develop internal procedures for editing regulatory issuances. We have been working with some offices equipped with Wang systems and have received their regulatory proposals on Wang diskettes. After we have edited the proposal, they received back from us a diskette with the edited version of the proposal. This procedure was repeated through the various draft stages, and when the issuance was approved, both RCD and the initiator had the final version on the word processor for future use.		
	required coordin procedures have	f Data Processing has developed software for a Wang-VM would like to utilize this feature and do as much of the ation as possible through electronic means. Many yet to be worked out, and we will be working with you to system possible, consistent with our mutual needs.	
STAT	3. As a first step, we have some questions about the equipment you have, or will be acquiring, and where more than one system is available, which you would prefer to use. If you would complete the attached and return it to us, we will be able to start some preliminary planning. If there are any questions, please call
